BLAZER AND SUIT JACKET TRIMS CORDING AND BRAIDING

Jackets and blazers can be customised with corded, taped or bound edges as shown below.

CORD AND BRAID TRIM

There are two variants of trim that can be applied to embellish blazers for a more prestigious look.

Cord is a twisted single or contrast colour trim that appears embossed on the blazer fabric. It is a standard 4mm width and is normally applied on the edge of the blazer, such as collar, lapels, etc.

Braid appears as a flat ribbon trim and can be a variety of widths from 6mm up to 25mm wide. It can be **taped** on the edge of the blazer, or for the wider widths, **bound** over whereby it is “wrapped” around the edge of the blazer. So for example, if 16mm braid was applied, then approximately 7mm would be visible on the outside, 2mm for the fold, and 7mm on the inside of the blazer.

A SELECTION OF TRIM PLACEMENT OPTIONS

INDEX R - Collar Only

INDEX J - Chest Pocket

INDEX S - Collar only
(with return to lapel seam)

INDEX Z1 - Collar, lapels to
top button & top pocket

INDEX Z2 - Collar & lapels

Z2	Collar & Lapel	£10.00

STOCK TRIM COLOUR OPTIONS

We can source braid or cord from our own in-house stock lines or from a variety of UK suppliers, so if you have something in mind then we will endeavour to match it for you.

MINIMUMS & LEAD TIMES

Minimum order quantity requirements may be as low as 12 pieces specifically for blazer trim, however consideration should be given to any other minimums applicable to the order, e.g. badge embroidery.

Please allow up to 7 business days for the completion of trim application, in addition to any other lead times that may apply to the order.
